

HOLIDAYS 2020

**GREEN.
EFFICIENT.
FUTURE-ORIENTED.**

ONOMOTION.COM

THE CURRENT SITUATION IN PARCEL LOGISTICS

No standardization for delivery

Diesel-powered vehicles limited to roads

Insufficient bundling of multiple shipments to the same recipients

Long walking distances between parked vans and delivery address

Multiple vans and sorting hubs

Manual process when loading the vans

Manual scanning and multiple touchpoints

No visible signature of the sender during delivery

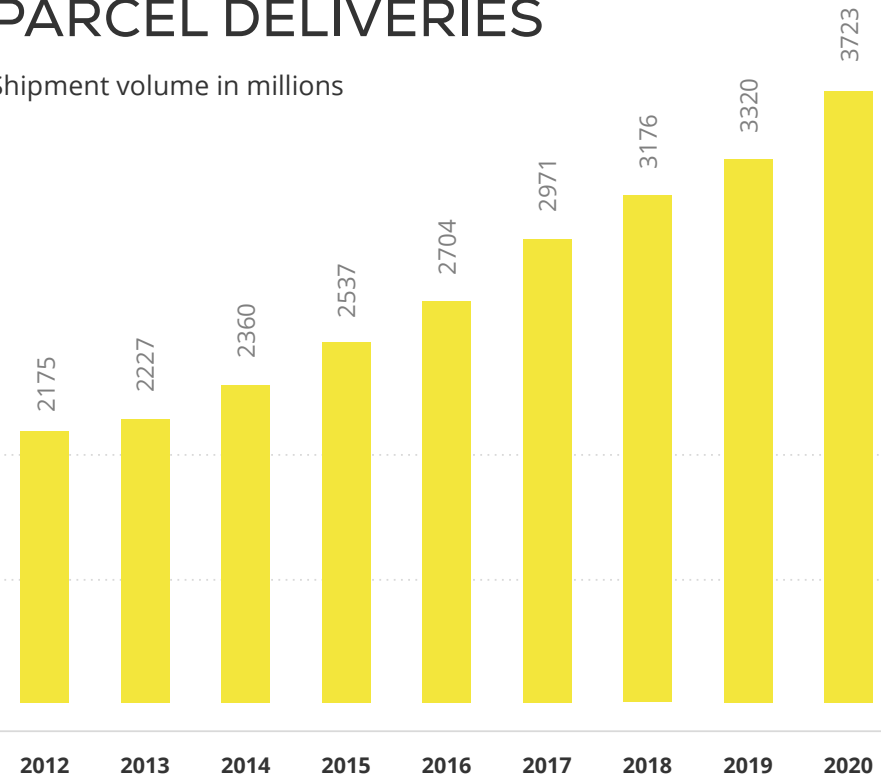

Regulations for emission-free inner cities and the climate crisis

The last mile is the costliest in parcel delivery

INCREASING VOLUME IN PARCEL DELIVERIES

Shipment volume in millions

**OUR LOGISTICS SOLUTION:
GREEN. EFFICIENT.
FUTURE-ORIENTED.**

VEHICLE-AS-A-SERVICE

LOGISTICS-AS-A-SERVICE

Various rental models for vehicle and container-module incl. battery rental, fully comprehensive insurance, maintenance, a mobility promise and service hotline.

Booking of the required container volume and takeover of handling and delivery using our software platform, drivers and vehicles.

THE HANDLING

THE FIRST AND MIDDLE MILE

Simplified handling of the container-modules, comparable to standard returnable pallets

Fast and convenient loading of the pre-commissioned container-modules

Replaces conventional trucks and vans

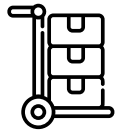

Decentralized organization and integration of micro depots and city hubs

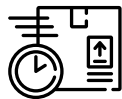

THE LAST MILE

Alleviates parking challenges

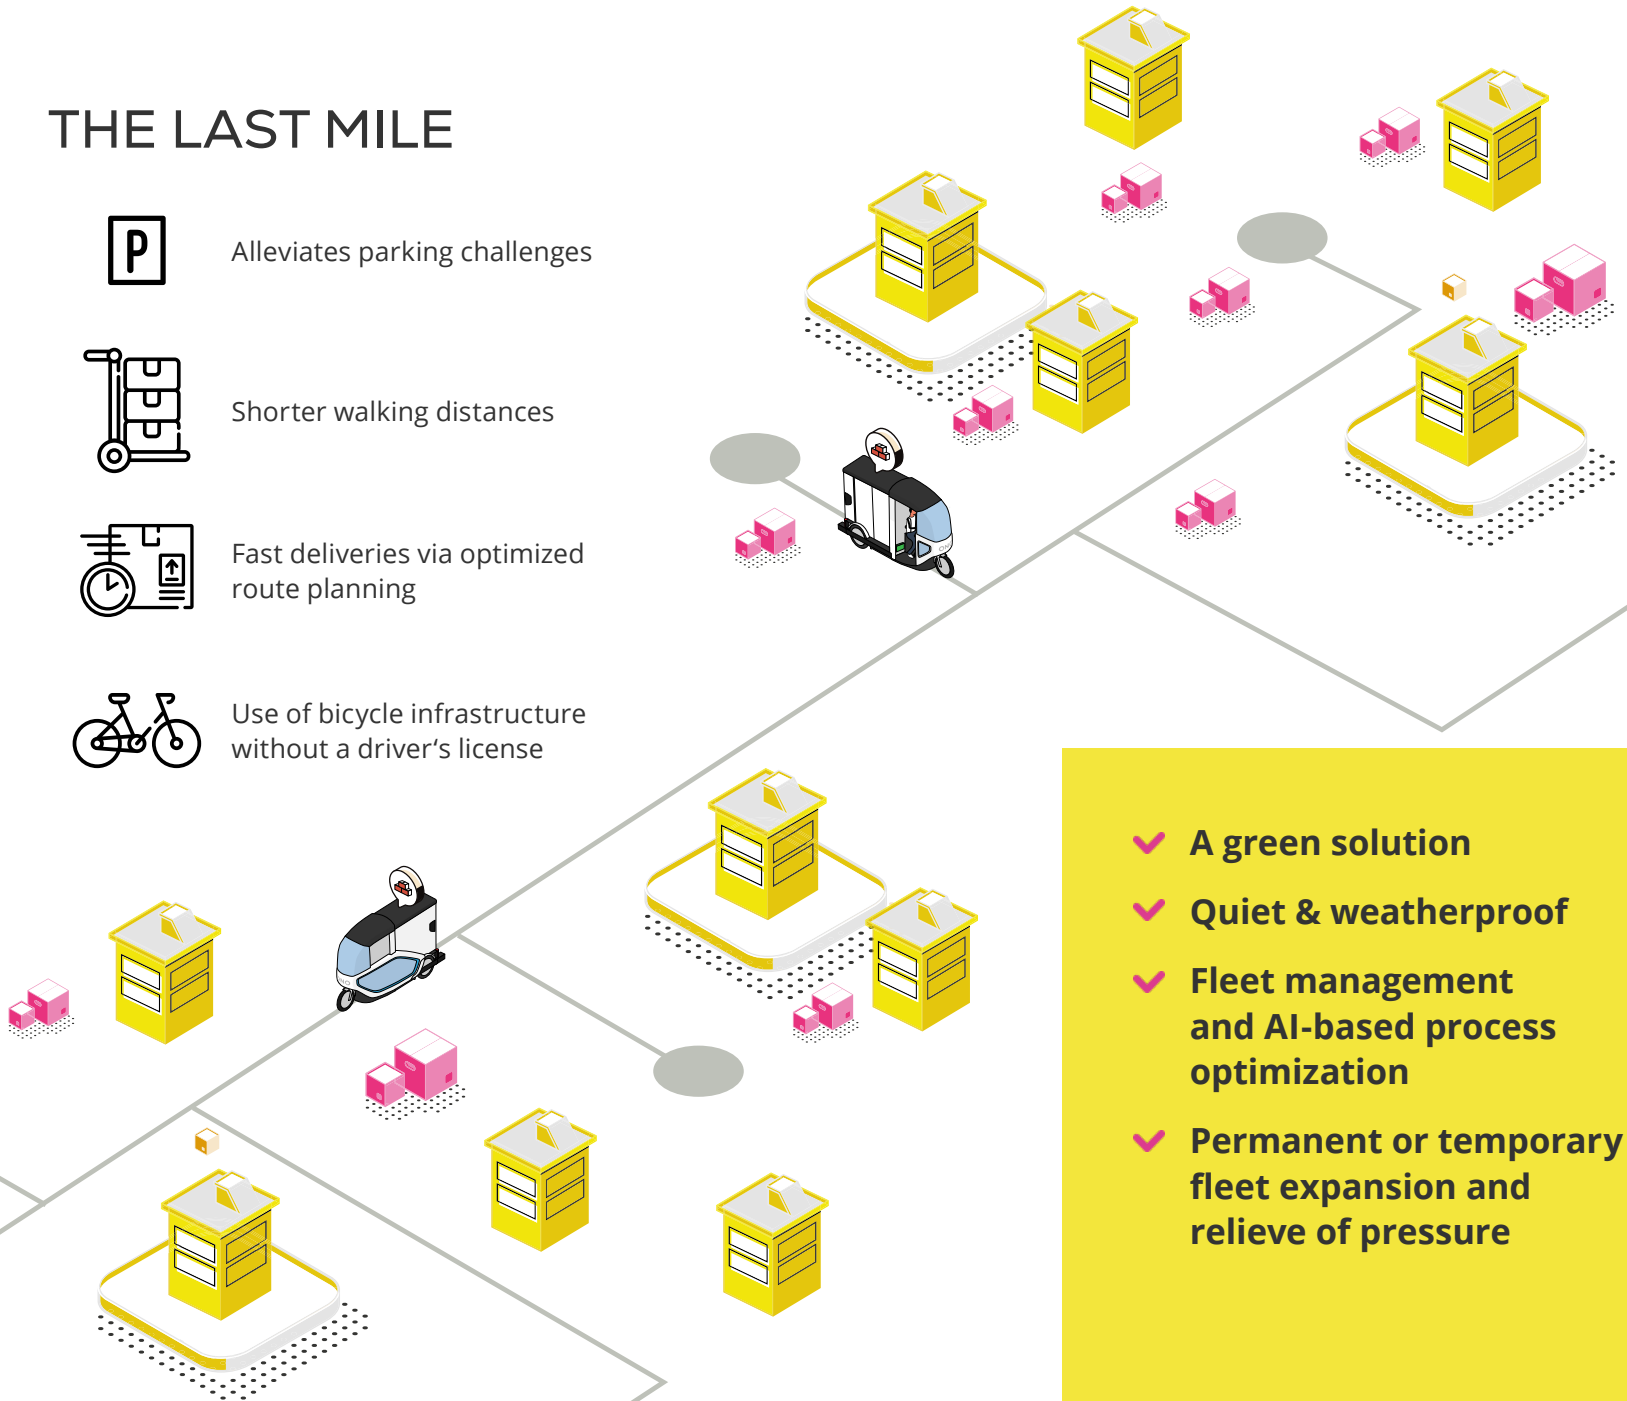

Shorter walking distances

Fast deliveries via optimized route planning

Use of bicycle infrastructure without a driver's license

- ✓ A green solution
- ✓ Quiet & weatherproof
- ✓ Fleet management and AI-based process optimization
- ✓ Permanent or temporary fleet expansion and relieve of pressure

HOW TO BOOK MY LOGISTICS SOLUTION?

1. Submit online inquiry or by e-mail
2. Receive customized offer
3. Order logistics solution
4. Payment terms are clarified
5. Receive order confirmation with the delivery date
